Tecnodeck presents its material on profiles for facades, sunscreens, pergolas and cabanas. The external look and touch of wood in WPC-Wood Plastic Composite in combination with an aluminium structural profile.

Highly resistant to atmospheric agents, virtually maintenance free.

Eco friendly material, up to 100% recyclable, presenting solutions according to EUROCODE are possible. Flexible mounting possibilities.

Combination with Deck/Terrace Tecnodeck Systems. Follow always the installation instructions. Tecnodeck designs facades with its profile solution, but also presents the possibility of facade construction with its deck boards.
